Low Voltage Switchboards/Panelboards

Specification	Capability
Voltage	120V to 600V
Ampacity	Up to 6300A
Short Circuit Ratings	Up to 100kAIC
Incoming Options	MLO, ACB, MCCB
Enclosure Options	NEMA 1, 12, 3R, 4X
Construction	Steel, galvanized, stainless steel (304/316)
Features	Service entrance rated, metering, surge protection, top or bottom feed, custom options available
Certifications	CSA22.2/UL891 and meeting ANSI C37.13, C37.16, C37.17 and C37.50
Protection & Control Options	LI, LSI, LSIG protection
	LED or Color LCD display
	Multi-metering Trip Unit
	Arc flash reduction maintenance mode switch
	AC/DC rated motor operator, shunt trip, UV release
	Rs-485 Modbus communication

Motor Control Centres

Specification	Capability
Voltage	208V to 600V
Ampacity	Up to 3000A
Short Circuit Ratings	Up to 100kAIC
Incoming Options	MLO, ACB, MCCB
Enclosures Options	NEMA 1, 12, 3R, 4X
Constructions	Steel, galvanized, stainless steel (304/316)
Bucket Style	Fixed or withdrawable
Certifications	UL845, CSA C22.2 No. 14 (@Nema 1, 12), UL508A (@Nema 3R or 4X)
Protection & Control Options	LI, LSI, LSIG protection
	LED or Color LCD display
	Multi-metering trip unit
	Arc flash reduction maintenance mode switch
	AC/DC rated motor operator, shunt trip, UV release
Applications	Pumps, oil and gas plants, municipal Infrastructure, conveyors, materials handling

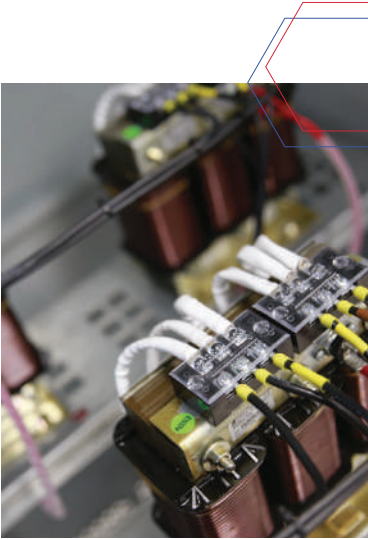

Medium Voltage Switchgear

Specification	Capability
Voltage	4.16kV to 38kV
Ampacity	Up to 4000A
Short Circuit Ratings	Up to 63kAIC
Incoming Options	MVVB
Enclosure Options	NEMA 1, 12, 3R
Construction	One high or two high
Bucket Style	Fixed or withdrawable
Certifications	cUL and CSA
Options	Custom configurations
	Retrofits/upgrades

Other Optional Equipment

Custom Solutions
Harmonic filtering
Integrated panel(s) & transformers
Padmount transformers
Dry type transformers
Custom substations or hard bussed equipment
Custom splitters
Integrated contactors or controls
Custom footprints or layouts
Retrofit designs for upgrading equipment

The EAC Difference

EAC was founded and operates on a mission dedicated to accountability, clarity, and technical depth. A customer-first approach aimed at delivering reliable solutions with clear and practical communication from inception to completion.

- Multiple manufacturing partners allows us to leverage not just ONE brand or manufacturer
- Our ability and timeline to efficiently offer custom solutions is unrivaled
- Custom volume manufacturing
- Niche products and custom solutions not supported by larger groups
- Strong support for design, warranty and commissioning

PRECISION SUPPLY SIMPLIFIED

Our Mission Is Simple

Understand project and client needs, communicate with extreme clarity, and approach delivery and execution like our business depends on it – because it does.

We approach our clients with a solution-based mindset and remove the standard limitations of larger providers. We work with select manufacturing partners who have proven engineering strength, flexible production capabilities, and full certification for North American markets.
